

PhysSec Education Policy on Remote Events

General

1. This policy governs PSV's presence at events for which long distance travel is necessary, such as conferences held outside of Toronto. The exception is DEF CON, which is governed by the Policy on DEF CON.
2. PSV will not agree to participate in an event unless all flight and lodging costs are reimbursed by the event organisers.
3. PSV will strive to have food and incidentals covered by the event organisers covered by the event as well, however this is not a strict condition of attending.
4. PSV will not agree to participate in an event unless a sufficient number of volunteers are interested in and able to commit to attending.

Volunteers

5. If more volunteers are interested in attending a given event than the budget allows for, the Policy on Approval for Travel to Conferences shall govern.
6. PSV may elect to send more volunteers than the event's budget allows for, and to cover the shortfall ourselves.

Expenses

7. All expenses incurred by members or volunteers in the course of attending or preparing for an event shall be reimbursed by PSV according to the Policy on Expenses.
